

Big Canoe Chapel - AV Guidelines

MEMBER AND NON-MEMBER

We offer a standard package that may be expanded. Most additional items can be added without additional charge. If there is a concern or send the completed form to: Jim McKechnie, (mckechnie@comcast.net), 404-272-5000, fourteen (14) prior to the Rehearsal date.

- AV Engineer / Technician
- 3 each – professional wireless microphones. Use and placement of either the lavalier(s) or handheld(s) microphones (including stands or goosenecks) will be chosen after consultation with the AV Engineer or Sound Technician.
- Dimmable Chapel chandelier lighting.
- Professional stage lighting capable of 64 million colors.
- Sound reinforcement speaker system.
- We are also capable of playing from your Blu-Ray, DVD, CD, flash or thumb drive, iTunes, or Spotify web sites (from either your device output HDMI or the Control Room laptop using your account) the Chapel approved music tracks.
It is imperative the music tracks supplied are clearly identified, and a list of the playback order with cues within the confines of the service seven (7) days prior to the Rehearsal date.. This can be discussed in detail when meeting with the AV Engineer.

We can also supply additional wireless microphones for:

- A Soloist
- Acoustic Guitar
- One additional participant or Reader

In addition, we can offer a higher level of services after consultation with the AV Staff. This will require adding a second AV Engineer/Technician.

- Digital recording the service. Plus, if requested, the post wedding photo shoot will also be recorded. The video data is a MP3 format. The client must supply a flash or thumb drive of sufficient capacity to accept the data download.

- Live, real time streaming of the entire wedding for those who cannot physically attend. Plus, if requested, including the post-wedding photo shoot. *(Be mindful of the ASCAP, BMI & SESAC music rules. Generally, the official wedding service may be exempt. However, any music outside the official service may incur additional fees paid for by the guest.)*

- Playback of video clips or a montage or additional graphics displayed on our screen using the Chapel video projector during the wedding service. The ceiling mounted screen is located behind the altar.

Briefly describe your thoughts on the Audio-Visual layout (microphone positions, instrument positions, etc.)

Provide details for any other special Audio-Visual needs:
